Hailing from Colorado, Daniel Hansen of Root Flute presents offerings of his uniquely intuitive & hypnotic healing

process via The Sound Journey™

The Sound Journey:

The soundscape of auricular hallmarks are D. Hansen's self-designed innovative multi-chamber Flutes, Pulse Tubes, Native American Drum, Swing Chimes, 3 overtone Plate Bells, Kick Shaker and a 10 piece base Metalophone that aides in deep emotional processing, remembrances and reconnections of self and visionary lucid meditations. It has been relayed by participants to evoke a pathway of receiving greater insight to themselves, their purpose and moving into transformational growth. Featuring Shamanistic stuccattos, deep soulful grooves with melodic builds & twinkling arpeggios. Above harmonizing overtone plate bells droning on a C# Sharp 432 Hrtz at the Ohm tone of 136.1 The primordial tone of the universe.

Hello!! I am recently back from 6 months in Auroville India, and 1 month in bali where I have been working very hard to bring this healing vision to life! This was a tremendous project that is ready to share!!! It is a culmination of years of hard work and amazing support.

Please Help Me Invite More People as I am a little out of the loop :)

Also, the sound journey lasts about 70 minutes. Please bring something soft to lay on. But there is a bit of before and after time.

Sound Journey Testimonials:

So special. Going on a sound journey with Dan, of Rootflute, is an experience you just don't want to miss. My sonic journey with Dan was incredibly unlike any other sound journey or sound healing event I've been to before -- and that's significant because I go to plenty of them here in Ubud, Bali! The unique and synergistic set-up helped to create frequencies in the room so beautiful and pleasurable, my mind and body were both able to really let go and enjoy the ride. And the frequency-intelligent, hand-made, one of a kind instruments that look Completely out of this world were played so damn beautifully, that each instrument probably could have taken me on that journey all on it's own. I'm pretty sure it took me to subconscious states I've never been to before. I for sure know that it raise my vibration for the entire day. It was like we were serenaded by a one-man-band in the medieval times in the most sacred of temples. What a blessed event. At least that's how it felt to me smile emoticon
I also loved the part afterwards where Dan told stories of each of the instruments and how the entire production has evolved. Incredibly captivating.
I'd highly encourage you to treat yourself and your consciousness to Dan's music and beautiful guidance in and out of a deep meditation. Enjoy the ride!
~Lenna, Ubud, Bali

Daniel is a gifted artist who I was privileged enough to hear perform during a Sound Journey Meditation. During the 70-minute meditation experience, I drifted into etheric realms as my heart opened and my body healed. It was amazing. I feel so blessed to have had the opportunity to experience the gift of his music that he is so willing to share with us. Amazingly talented, I wouldn't miss the opportunity to have another experience listening to the beautiful music he creates.
~Stacy, Denver CO

Pretty sure that sound journey cleared some things inside of me yesterday. I didn't realize it immediately except I felt so much lighter. And I woke up feeling so refreshed this morning... I haven't been on my sewing machine in months. And I have been working on this poncho for the last 7 hours!! Feels incredible.
~Mellisa Nederland CO

Last night was brilliant! I'm grateful to have been blessed by your presence, instruments and music. I agree with the woman who said she had a conversation with her friend who passed recently. I, too, had a similar connection with a friend who passed last month. Your work is grounding, exhilarating and uplifting all at the same time. This morning, I awoke with NO need to blow my nose from allergies. In the 3 weeks, every morning my sinuses have been draining. I realized about 9am, that I am cleared!! You may quote me, if you wish.
Love and Peace to you.

Ashtanga Yoga with Becky

Ashtanga Vinyasa Yoga with Becky Potter
Every Tuesday and Friday Morning!
9:30-10:45am

This is an invigorating, athletic practice that is steeped in tradition. No previous yoga experience is required. The sun salutation is at the heart of the practice, tying breath to movement and bringing vitality and mobility to every part of the body. Interwoven with the sun salutation, we explore a set sequence of poses that we return to in each class. From simple forward folds to complex arm balances and inversions, the goal in the practice is to create alignment in

the body that allows comfort and ease. Along the way, students will have opportunities to sweat, to laugh, to stretch, to strengthen, to explore their limits, and to expand their boundaries.

Becky has studied and practiced many styles of yoga over the past decade. In the Ashtanga Vinyasa style, Becky has found her yoga home. She is honored to share the teachings of Ashtanga with students at Taspens. When she is not teaching yoga, Becky is likely to be hanging out with her kids, gardening, cooking, or reading.

Ho'o'ponopono Ceremony with Alaya Love

We are very honored to have Alaya Love come back to the Shanti Studio at Taspens to share Ho'o'ponopono with our community!

Ho'o'ponopono is an ancient Hawaiian ceremony and powerful tool for transformation, clearing our DNA & lineage 12 generations back! The word ho'o'ponopono means 'to set things right' through a process of connecting to SOURCE within, accepting responsibility for choosing and creating this life as the best curriculum specifically designed for each individual; AND then forgiving self, in this form and in the form of OTHER to be freed of all obstacles that stand in the way of manifesting our true purpose and fulfillment on planet Earth during this lifetime.

Alaya Love was gifted the lineage of Huna from the 'Kahuna's Kahuna' of all Polynesia... the beloved Makua from the Big Island. She worked with Makua from 1999 until his death in 2004. Alaya was asked to bring these sacred teachings out to the world during this important time for those ready to RECEIVE, AWAKEN & REMEMBER.

Alaya is an elder, wisdom keeper, vision holder, spiritual counselor, meditation teacher and healer using ancient Hawaiian Huna Healing techniques and ceremonies. Alaya's spiritual tradition is wedded in the Hawaiian Huna tradition, whose ancestry is from the Pleiades and Sirius star systems. She specializes in assisting others in awakening their gifts, talents and true soul purpose. Alaya is internationally recognized and trained in Toltec and Huna traditions using very effective, time-tested tools of transformation for the empowerment, awakening and activation of the individual.

"This is Awakening work: wherever you are at in your personal ascension process this work will allow you to rise ever higher to your next level of evolution and embodiment." ~Alaya Love

The basic teachings & ceremony last approximately 5 hours. It is recommended that those who participate not plan anything after the workshop as to allow space for integration. Upon request donation based Body/Energy work will be available after the ceremony to assist in the integration process.

For the ceremony, please arrive at 12:30 to get registered and to settle in so we may begin at 1pm.

Blessings and Aloha!
Alaya Love

Investment: \$150 cash (includes 21 days of Hawaiian Huna prayer treatment following the ceremony.)

Please Note: Cash payment is required by Alaya as the exchange of energy goes directly from participant to teacher when cash payment is made, and not through a bank.
